

June 21, 2021

Andrea Palm
Deputy Secretary
Department of Health and Human Services
200 Independence Ave. S.W.
Washington, DC 20201

Dear Deputy Secretary Palm,

On behalf of the Nursing Community Coalition (NCC), which includes 63 member organizations, we congratulate you on your confirmation as the Deputy Secretary of the U.S. Department of Health and Human Services (HHS) and welcome the opportunity to meet and discuss shared goals, especially during these unprecedented times. The NCC represents a cross section of education, practice, research, and regulation within the nursing profession and believes that the healthcare delivery system should be one that promotes wellness, advances research through scientific discovery, and provides timely access to care across the life continuum. We are proud to continue our work with HHS, especially as nurses, Advanced Practice Registered Nurses (APRNs)<sup>1</sup>, nursing students, and nurse leaders represent the largest segment of the healthcare workforce.

During the ongoing COVID-19 pandemic, as with every public health crisis this country has faced, nurses and APRNs are the experts leading at the frontlines. You have witnessed this firsthand as the Secretary-designee of Wisconsin's Department of Health Services, and in your past work at HHS, including combating the opioid epidemic. We join you in looking ahead, and ensuring our current and future nursing workforce is prepared to address the health care challenges of today and tomorrow.

For years, our coalition has worked with HHS, along with various agencies within the Department, to bolster key programs, such as the Title VIII Nursing Workforce Development Programs, and support provider education and training with the goal of ultimately increasing access to high-quality care. We recognize that our students, nurses, and APRNs are an integral link to all aspects of that care. That is why we have supported various initiatives to remove barriers to practice, encourage innovation, increase flexibility in telehealth provisions, coverage, and reimbursement, and extend, or make permanent, waivers issued during this public health emergency.

<sup>&</sup>lt;sup>1</sup> APRNs include certified nurse-midwives (CNMs), certified registered nurse anesthetists (CRNAs), clinical nurse specialists (CNSs) and nurse practitioners (NPs).

The unique partnership the NCC has created allows our national nursing organizations to unite on shared priorities and promote America's health through the nursing lens. We stand ready to work with you to support the health of our nation. If the Nursing Community Coalition can be of any assistance to you or your staff, and to set up a meeting to discuss shared goals, please do not hesitate to contact the coalition's Executive Director, Rachel Stevenson, at <a href="mailto:rstevenson@thenursingcommunity.org">rstevenson@thenursingcommunity.org</a> or at 202-463-6930, ext. 271.
